

Practical 8

- Demonstrate the working of any other buffer overflow other than a stack overflow.
- Tips:
 - Demonstrate it in a virtual environment, i.e. VirtualBox
- Make screen video of your demo. 5min max
- Must state your name, student no. at beginning
- May NOT use videos from Internet, only yours!
- Submission deadline: 04/11/2022, 07:00
- Absolutely no late submissions will be allowed. No excuse of slow server, load shedding etc.
- No email submissions will be accepted.

Practical 8

- Marks awarding:
 - Video time utilization – Max 5min. Mark: 10
 - Variety of demonstration (different buffer overflows?). Must at least have one. Mark: 20
 - Construction and flow of video (clarity, logic etc.). Mark: 20
 - Total: 50
 - Bonus: 10
 - Hints for bonus:
 - Anything more than required above.
 - Must have a summary in your video where you indicate what you think can be for bonus marks.
 - If your video guides very well how to recreate your demo by the person watching it, you will get bonus.
